

Follow-Up After Emergency Department Visit for Mental Illness (FUM)

New for 2026

- No applicable changes to this measure

Yes!
Supplemental data accepted

Definition

The percentage of emergency department visits for members ages 6 years and older with a principal diagnosis of mental illness or any diagnosis of intentional self-harm, who then had a follow-up visit for mental illness.

Two rates are reported:

1. The percentage of ED visits for which the member received follow-up for mental illness within the **7 days** after the visit (8 days total)
2. The percentage of ED visits for which the member received follow-up for mental illness within the **30 days** after the visit (31 days total)

Tips and best practices to help close this care opportunity

This measure focuses on follow-up treatment with a primary care provider or a behavioral health practitioner.

- See patients within 7 days and bill with a mental health diagnosis
 - If a situation arises where a patient is unable to be seen within 7 days, then they need to have an appointment within 30 days of discharge
 - Encourage the use of telehealth appointments when appropriate
 - If you need to refer your patient to a behavioral health specialist or need to request coordination of care, please call the number on the back of the patient's health plan ID card or search liveandworkwell.com
- Available resources:
 - Behavioral health screening tools and resources: providerexpress.com
 - Patient education: liveandworkwell.com > Browse as a guest with company access code > Use access code “clinician” > Explore and Learn
 - Mental health visits can be accepted as supplemental data. Please contact your UnitedHealthcare representative to discuss clinical data exchange opportunities.
