

# Follow-Up After Emergency Department Visit for Substance Use (FUA)

## New for 2026

- No applicable changes to this measure

## Definition

The percentage of emergency department visits for members ages 13 and older with a principal diagnosis of substance use disorder (SUD) or any drug overdose diagnosis and who had a follow-up visit.

Two rates are reported:

1. The percentage of ED visits for which the member received follow-up for SUD within the **7 days** after the visit (8 days total)
2. The percentage of visits or discharges for which the member received follow-up for SUD within the **30 days** after the visit (31 days total)

## Tips and best practices to help close this care opportunity

- This measure focuses on follow-up treatment with a primary care provider or a substance use specialist.
- See patients within 7 days and bill with a substance use diagnosis
- If a situation arises where a patient is unable to be seen within 7 days, then they need to have an appointment within 30 days of discharge
- Encourage the use of telehealth appointments when appropriate
- The Mental Health Services Administration supports following the Screening, Brief Intervention and Referral to Treatment (SBIRT) guideline at [samhsa.gov/sbirt](https://www.samhsa.gov/sbirt)
- If you are not going to treat the patient yourself, you will need to refer your patient to a substance use specialist. To request coordination of care, please call the number on the back of the patient's health plan ID card or search [liveandworkwell.com](https://www.liveandworkwell.com).
- Available resources:
  - Alcohol and drug use screening tools: [providerexpress.com](https://www.providerexpress.com) > Clinical Resources > Behavioral Health Toolkits for Medical Providers
  - Patient education: [liveandworkwell.com](https://www.liveandworkwell.com) > Browse as a guest with company access code > Use access code "clinician" > Explore and Learn
- SUD can be accepted as supplemental data. Please contact your UnitedHealthcare representative to discuss clinical data exchange opportunities.
