

# Follow-Up After Hospitalization for Mental Illness (FUH)

## New for 2026

- No applicable changes to this measure

## Definition

Percentage of discharges for members ages 6 and older who were hospitalized for a principal diagnosis of mental illness, or any diagnosis of intentional self-harm and had a mental health follow-up service.

Two rates are reported:

1. Percentage of discharges where the member received follow-up within 30 days of their discharge
2. Percentage of discharges where the member received follow-up within 7 days of their discharge

## Tips and best practices to help close this care opportunity

This measure focuses on follow-up treatment.

- Refer patient to be seen within 7 days of discharge
  - Any medical or behavioral health provider can see the patient post discharge and need to bill using the qualified codes and mental health diagnosis and with appropriate place of service locations
- Visits can be telehealth with a mental health provider OR with any diagnosis of mental health disorder.
- If a situation arises where a patient is unable to be seen within 7 days, then they need to have an appointment within 30 days of discharge
- If you need to refer your patient to a behavioral health network practitioner for further assessment and/or additional treatment, call the Behavioral Health number on the back of their UnitedHealthcare member ID card
- Offer National Suicide Prevention Lifeline "988" for patients to call, text or chat when needed
