Required exclusion(s)

Exclusion

- Members in hospice or using hospice services
- Members who died

Time frame

Any time during the measurement year

Important notes

- The well-child visit must be done by a primary care provider, but it doesn't have to be with the member's assigned primary care provider
- School-based health clinic visits count for this measure if they're for a well-care exam **and** the physician completing the exam is a primary care provider
- A sports physical does not qualify for a well-care visit because it does not include required components for a well-care exam such as the health history, preventive care, behavioral and development screenings
